

Cleared Talent. Compliant Missions.

Vetted cleared cyber & cloud staffing, CMMC readiness & advisory, and cloud security & managed services

COMPANY OVERVIEW

Middlebelt Technologies LLC is a veteran-owned, Houston-based Service-Disabled Veteran-Owned Small Business (SDVOSB) offering three tightly related services: vetted cleared cyber and cloud staffing, CMMC readiness and advisory, and cloud security and managed services. Founded and led by a governance, risk, and compliance engineer and Army veteran, Middlebelt enables primes, local agencies, and growing businesses to place cleared, mission-ready talent, meet compliance requirements, and secure their cloud operations. We serve clients nationwide, across CONUS and OCONUS.

CORE COMPETENCIES

01 Cleared Cyber & Cloud Staffing

- ▶ Cleared & cleared-eligible specialists
- ▶ Primes & subcontractors
- ▶ Contract, contract-to-hire & direct

02 CMMC Readiness & Advisory

- ▶ CMMC & NIST 800-171 readiness
- ▶ Gap assessments, SSP & POA&M
- ▶ GRC engineering & controls

03 Cloud Security & Managed Services

- ▶ Cloud architecture & migration, managed infrastructure & monitoring, identity & access, and backup, continuity & DR

DIFFERENTIATORS

- **Practitioner-run.** CMMC readiness, cloud security, and talent vetting are handled by a working GRC engineer, not a generalist reselling someone else's work.
- **A cleared talent pipeline.** Access to veterans and transitioning service members who already hold clearances and understand defense-mission work from the inside.
- **Readiness that holds up.** CMMC and NIST 800-171 preparation turned into implemented, defensible controls before your C3PAO assessment.
- **SDVOSB that helps you win.** Working with Middlebelt supports your set-aside and subcontracting goals, with a partner who delivers.
